Github: github.com/Kancharana-Tanay **Mobile**: +91-7095914103

Skills

- **Languages**: Python, C, C++, JavaScript
- **Frameworks**: Tailwind, Bootstrap, Node.js, React.js, Express.js
- **Tools/Platforms**: MySQL, MongoDB, Postman, Spline, Vercel, Render, Linux,
- **Soft Skills**: Problem-Solving, Team Player, Adaptability

Projects

- **Maytastic – E-commerce Platform Link | Github Client | Github Server** November' 2025
  Tech-Stack: MongoDB, Express.js, React, Node.js, Tailwind
  - Designed and developed a complete full-stack e-commerce platform with authentication, cart, product management, wishlist, and order workflows.
  - Built scalable REST APIs using Node.js, Express, and MongoDB; developed the frontend with React; integrated Shiprocket API for automated shipping; and deployed using Netlify and Render with proper DNS, HTTPS, and CORS setup.
  - Delivered a secure, production-ready e-commerce system with automated logistics, responsive UI, optimized media handling, and reliable real-world performance.

- **MovieZ – Responsive Movie Discovery Web App | Live Link | GitHub** June' 2025
  Tech-Stack: React, TMDB API, CSS/Tailwind
  - Built a responsive movie discovery web application featuring search, pagination, and detailed movie information pages.
  - Used React with TMDB API for real-time data, implemented debounced search and pagination for performance, and designed reusable, mobile-first UI components.
  - Achieved a fast, user-friendly browsing experience with reduced API load, smooth navigation across large datasets, and clean cross-browser compatibility.

- **Ride Hailing App – Real-Time Location & Booking Platform | GitHub** March' 2025
  Tech-Stack: React, JavaScript, Geoapify, Leaflet, GSAP, Tailwind
  - Developed a ride-hailing web app inspired by Uber, enabling real-time location tracking and a complete ride booking flow.
  - Integrated Geoapify and Leaflet for live map rendering, implemented booking logic with fare estimation and trip confirmation, and enhanced UI using GSAP animations and global state management.
  - Created an interactive, mobile-friendly application with smooth animations, real-time map updates, and a seamless end-to-end booking experience.

Certification

- Cloud Computing - 12 Weeks by NPTEL | **Link** April' 2025

Certificates

- ChatGPT-4 Prompt Engineering: Generative AI & LLM - Self-Paced by Infosys | **Link** August' 2025
- Data Structures and Algorithm - 72 hours – Self-Paced by neoColab(LPU) | **Link** December' 2024

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.0** August' 2023 - Present
- **Sri Chaitanya Junior College** Visakhapatnam, Andhra Pradesh
  Intermediate; **Percentage: 80.05** April' 2021 – March' 2023
- **Gloria Vidya Kendram EM school** Visakhapatnam, Andhra Pradesh
  Matriculation; **CGPA: 10** April' 2020 – March' 2021
